**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

We need more competition for fiber/broadband. Reasonably priced fiber is critical to our business and the future. Our business is in a rural community with only one option for reasonable internet. With more competition, customers can gain access new technology, faster internet, and reasonably priced services.

Having the option to choose from a variety of providers is critical to avoid anti-competitive behavior and price hikes without technology improvements.

Jake Martini
